Hydration Station

What is the Hydration Station?

The hydration station is a concept new to Westernport Water that brings drinking water to an event near you. The mobile trailer is transportable and suitable for a wide range of events from cycling, running and beach events to community festivals and shows. Your visitors will appreciate the convenience and availability of free water to keep hydrated and refreshed.

The hydration station is so versatile it can be connected to most areas that receive potable (drinking) water. Mains connection is preferred however it even has the capacity to be connected to a water tanker for those remote destinations.

Hydration Station Features?

The Hydration station features include:

- 6 Drinking fountains
- 8 Tap outlets for filling bottles
- 2 Large stainless steel troughs on both sides of the trailer
- Ability to connect to mains pressure or into a storage tanker
- Self contained lighting for use at night
- Lockable doors
- Ability to locate the Hydration Station in the best possible position

Supply your Guests With Water!

Run your next event on water!

It's recommended you drink 6-8 glasses of water to prevent dehydration.

Hire Options
