

Phillip Island fun this September!

Discover Phillip Island holiday fun with an escape to Victoria's fun Island just ninety minutes drive from Melbourne!

Holidays, particularly family holidays, tend to fall into two categories: a memorable love-in or nerve-fraying torture. To ensure a successful break away with the youngsters, parents need the right mix of fun, good value, all-weather activities and entertainment for varying ages. Based on this checklist Phillip Island, 90 minutes from Melbourne on Victoria's south-east coast, is the ideal family holiday destination, guaranteeing a memorable experience.

This September we have a fantastic new festival kicking off the break, **Kids are Family** will be held on the 18th and 19th September, offering families with kids aged 4-14 challenging and interesting activities to fill a full day and includes entry to the fascinating A Maze'N Things and Koala Conservation Centre.

With the island's mix of diverse coastlines, wildlife attractions and entertainment parks – the amusing and educational – have been designed to suit all budgets and are all in close proximity to each other. And if you're visiting for just a few days or few weeks, there's ample to keep even the most-choosy child amused. In fact some of the best value activities come free and can be found on the island's 100 kilometres of diverse coastline – all within a maximum 15 minute drive.

Experience wildlife, farming, fishing, cooking classes, ten pin bowling, mini golf, maze, chocolate, history, surfing, entertainment, action helicopter flights, go-karting, circuit tours, cruises, bike riding, walking, golf, tennis, ranger adventures and more on this unique Island. Plus an array of villages full of shopping, food and wine experiences. Accommodation choices include resorts, holiday parks, motels and apartments to suit all budgets and family needs.

For further information on Phillip Island accommodation, activities, attractions and what is on this September see visitphillipisland.com or call the Visitor Information Centre on 1300 366 422.

Phillip Island September 18th & 19th 2010
FESTIVAL of FUN
 at 3 fabulous fun parks: Phillip Island Adventure Resort, A Maze'N Things & Koala Conservation Centre

Full details inside

Sponsored by

Tourism Victoria

festival program

Saturday 18th & Sunday 19th September 2010

10am–5pm

Sports Centre

Join in sporting activities all day on our huge oval. Challenge your friends and family to old time games, boot camp challenge, ten pin bowling, and fun novelty sports. Activities suitable for 4–14 year olds and adults.

Toddlers Centre

A fun centre set up for younger children to explore and develop their creative minds and bodies. A mixture of quiet and busy activities to suit the little ones.

Gut wrenching activities

For older children and adults we present our biggest challenges. If you dare, have a go at our 17m high giant swing, 300m flying fox, crate climb, drop slide, circotron and high ropes course.

Box it up

We have hundreds of boxes – big, medium and tiny ready for you. Use your creative energy and build a family sized house, secret tunnel, or construct a tower taller than dad.

Arts Centre

Art small, art big, street art and art as a family. Art by sketching, painting and making things. Of course there is face painting – and you get to be the artist!

Adventure activities

As well as our gut wrenching activities we offer more modest adventure for the family. Have a go at canoeing, rock wall, initiative course, low ropes course, mini flying fox, archery, boulder wall and team rescue.

Maze and Mini Golf

Challenge both your mind and body in our fabulous maze by finding the four hidden flags. Play mini golf at our crazily designed course. It's family fun at its best.

Music and Dance

Feel the beat, learn the beat, dance the beat. Participate in drumming and dance workshops in preparation for the daily parade at 3.30pm with plenty of noise, colour and movement.

Nature activities

Get face to face with Koalas along the raised boardwalk. Explore through nature based art activities. Use dip nets and microscopes to investigate the dam for water based animals and plant life.

Bowen's Build-it Centre

Our woodwork centre lets you have a go at building your own construction. Once finished you can choose to paint it before taking it home. Or build a penguin box to be used as a home for a penguin family.

Mind games

Be confused in two fantastic illusion rooms, outsmart the thinking challenges in puzzle island, test your knowledge as a family in our theatre style quiz room.
