

Mapped Network Name	Existing Mapped Status	Mapped Status during works	Note for applicable operator(s); Advice on how to seek access during works
Class 1 Vehicles			
2-Axle SPVs, & 2-Axle Humma Pick & Carry Crane Network	Approved	Approved	No operational impact
40t SPVs (3 & 4-Axle Truck Cranes & Concrete Pump Trucks)	Approved	Approved	No operational impact
4 & 5 Axle All Terrain Mobile Cranes	Conditionally approved	Restricted	Removal of access. For duration of works, seek Permits via NHVR. Counterweights removed will allow higher chance for consent.
6 to 9 Axle All Terrain Mobile Cranes (Reference Vehicles 1 to 8)	Not Mapped	Restricted	Existing permits shall be rescinded. Re-application for access during the period of works required.
Platform Trailer and Low Loader Networks (Reference Vehicle 1 to 23)	Not Mapped	Restricted	Existing permits shall be rescinded. Re-application for access during the period of works required.
59.5t and 77t Low Loader Networks	Not Mapped	Restricted	Existing permits shall be rescinded. Re-application for access during the period of works required.
Oversize & Overmass (OSOM) Network	Not Mapped	Restricted	Existing permits shall be rescinded. Re-application for access during the period of works required.
Class 2, PBS, & HPFV Combinations			
Class 2 Networks - B-Doubles, Higher Mass Limits (HML), & Grain Harvest Management Scheme (GHMS) Vehicles.	Approved	Restricted	Removal of access. Mass of vehicle at or below 42.5t GCM will be granted access.
PBS Level 1 Network	Approved	Restricted	Removal of access. Mass of vehicle at or below 42.5t GCM will be granted access.
PBS Level 2A Cubic Network	Approved	Restricted	Removal of access. Mass of vehicle at or below 42.5t GCM will be granted access.
PBS Level 2A Mass Networks	Not Mapped	Restricted	Existing permits shall be rescinded. Mass of vehicle at or below 42.5t GCM will be granted access.
PBS Level 2B Cubic Network	Approved	Restricted	Removal of access. Mass of vehicle at or below 42.5t GCM will be granted access.
PBS Level 2B Mass Networks	Not Mapped	Restricted	Existing permits shall be rescinded. Mass of vehicle at or below 42.5t GCM will be granted access.
PBS Level 3 Networks	Not Mapped	Restricted	Existing permits shall be rescinded. Mass of vehicle at or below 42.5t GCM will be granted access.
PBS Quad Semi Trailer Network	Not Mapped	Restricted	Existing permits shall be rescinded. Mass of vehicle at or below 42.5t GCM will be granted access.
Emergency & Emergency Preparedness Vehicles			
Emergency Response & Preparation Combinations (up to 46.0t & 3.0m wide)	Approved	Restricted	Removal of access. Separate Permit through the NHVR required to operate with required conditions to cross the structure.
Emergency Response & Preparation Combinations (up to 78.5t & 4.0m wide)	Approved	Restricted	Removal of access. Separate Permit through the NHVR required to operate with required conditions to cross the structure.
Unimog 4000M Fire Trucks	Approved	Approved	No operational impact
Oversize & Overmass Agricultural Vehicles & Implements			
Class 1 Oversize & Overmass Agricultural Vehicles	Approved	Conditionally Approved	Vehicles at or below 42.5 tonnes GCM will be approved for access via map. Where vehicles cannot gain access via the conditional approved map, a separate Permit through the NHVR required to operate with required conditions to cross the structure.
Class O Oversize Agricultural Vehicles	Approved	Approved	No operational impact
Class 2 & 3 Controlled Access Bus			
Class 2 & 3 Controlled Access Bus	Approved	Approved	No operational impact
